A compact, aphanitic lithotype that is white verging on light grey in color with frequent grey veins micrometric in thickness with a more or less perpendicular orientation. There are frequent dark grey subrounded patches and spots up to subcentimetric in size. Surface pores are scarce.

Bianco Gioia is one of the favorite Whites coming from the Apuan Alps: its background is pure white and this allow people to get minimal designs and delicate color contrasts. Elegant and clean, it's suitable for interior applications, like feature walls, countertops and luxury bathrooms.
